Fasten off, leaving a 24" tail.

Make Stem:

Cut 1 length of B 18" [45.5 cm] long. Fold in half, holding 2 strands tog of one end. Twist strands to the right until they begin to curl. Fold the 2 ends tog and tie in a knot so they will not unravel. The strands will now twist themselves tog.

Assembly:

Insert the Stem into the top hole of the pumpkin so that the cut ends are inside. Use the long tail of the pumpkin to gather the sts of the final round closed. Pull the tail through the center of the stem to secure it. Use the finishing needle to send the end through the center of the pumpkin and through the center of the 1st rnd to collapse pumpkin. Weave in end on bottom of pumpkin.
