Store-It Pompom Basket

Add a crafty touch to a purchased basket! Pomp-a-Doodle yarn makes it easy, since the pompoms are already made for you.

TRIM

Note

If using glue gun, plug in to heat.

1. Begin by applying a small amount of glue a little at a time to the bottom of the basket.
2. With the Pomp-a-Doodle yarn intact, attach pompoms side-by-side pulling the yarn strand located between the pompoms up above the first row. Continue around basket.
3. Repeat the above directions for second row, but this time you will be covering the yarn strands from the first row with the placement of each pompom. Continue around basket. Cut yarn at the end of row 2.
4. Once the basket has dried completely, using sharp scissors, trim the yarn strands from row two and any other strands that may show.

Top Corners

With the remaining yarn, cut four pompoms leaving both sides of the yarn strands attached to pompom. Tie to each corner of the basket. Knot to secure and trim all ends.
