## INSTRUCTIONS

### O'Go Notes:

- To begin working with the O'Go format, carefully cut plastic tie where the ends of the O'Go meet.
- Pull tie to remove.
- Start crocheting!

### Notes:

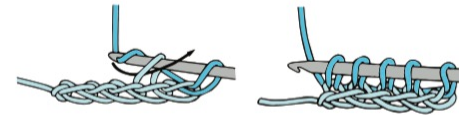

1. Throw is made from 81 mitered squares, arranged in a spiral.
2. Squares are worked and joined to previous squares as they are made. Refer to Diagram for placement and direction of work for each square.

3. A border, worked in standard crochet, is worked around the entire outer edge of the spiral of mitered squares. When instructed to work in a stitch "2 rounds below", insert the hook around the next stitch in the round numbered 2 less than the round you are currently working. For example, if you are working Round 3, a stitch "2 rounds below" is in Round 3 - 2 = Round 1.
4. Work all rows with RS of work facing.
5. Tunisian crochet creates a thicker, stiffer fabric than regular crochet. It is important to work loosely to create a throw that drapes well.
6. When working in a chain, always work in the back bumps only; this leaves an edge with two free loops which is necessary to create the join.
7. When working in the last loop of a forward pass, it is important to work through both vertical bar; this leaves an edge with two free loops which is necessary to create the join.
