GAUGE: 20 sts = 4"; 16 rounds = 4" in sc. **CHECK YOUR GAUGE. Use any size hook to obtain the gauge.**

NOTES

1. Gauge is not crucial but stitches must be made tightly enough to prevent filler from showing through.
2. All parts are worked in un-joined spirals unless specifically indicated.
3. Head and body are worked in 2 separate pieces and are sewn together using yarn tail.
4. Stuff body parts as rounds are worked unless otherwise indicated.
5. Eyes are embroidered on using black yarn remnants. Please do not use buttons or safety eyes for children under 2 years of age.

Special Technique

Adjustable ring method = Holding the thread a few inches from the end, wrap around your finger. Do not remove wrap from finger, insert hook into the wrap and draw up a loop of working thread. Chain one to secure the loop and remove ring from finger. Work stitches of first round in the ring. Pull gently, but firmly, on tail to tighten ring.

Special Abbreviations

inc (increase) = 2 sc in next sc.

dec (decrease) = [draw up a loop in next st] twice, yo and draw through all 3 loops on hook.
