

Cool Décor Frame and Lamp

Here's a unique crafty idea for girls that want their room to be as individual as they are. Use this super bulky yarn to add pizzazz to ordinary lamps, frames, bulletin boards or other room accessories. All you need is Doodle yarn and a glue gun!

Designed by Red Heart Design Team.

Measurements: Frame 6" x 8", Lamp base 3½" diameter.

RED HEART® Boutique™ "Doodle™": 1718 Hot Pink.

Materials: Hot glue gun, 5" X 7" frame, small lamp of choice, decorative button and optional sewing needle and thread.

NOTES: When cut, Doodle™ tends to ravel. To prevent excessive shedding, take a sewing needle and thread and make a couple small stitches and knot to secure the end that was cut.

Please use adult supervision while operating a hot glue gun.

FRAME

Measure around the frame you are using and cut the amount of yarn that you will need. With the glue gun apply small amounts of glue at a time to edge of frame and secure the same amount of yarn around the frame. Continue this process until the entire frame is covered. To decorate, hot glue a cute button in one corner.

LAMP

Measure around the base of the lamp you are using. Cut that amount of yarn. Apply small amounts of glue and apply the yarn as you go. Continue this process until the lamp base is covered.
