Woven Wall Hanging

If you love the boho style of tapestry wall hangings, this project is for you. Weaving is quick and easy with Grande yarn and a wooden frame loom! Follow the pattern or create your own design.

Weaving measures approximately
9" x 16 1/2" (22 x 42 cm)

PREPARE LOOM

1. Find the center of your loom; mark with a piece of tape.

WEAVING

1. Cut piece of **A** approximately 5 feet (1.5m) long. Thread wooden needle with yarn and work across the loom, going behind one vertical strand and in front of the next.

continued...

Designed by Red Heart
Design Team

What you will need:

Red Heart® Grande™: 1 ball each 402 Foggy **A**, 511 Wintergreen **B**, 110 Aran **C**

Red Heart® Super Saver®:
1 skein 0311 White **D**

Wooden frame loom, such as Melissa & Doug® Wooden Multi-Craft Loom

Wooden needle (included with Multi-Craft Loom)

Dowel or stick for hanging

RED HEART® Grande™, Art 826 available in 5.29 oz (150 g), 46 yd (42 m) balls

SHOP KIT

2. Pull yarn through warp yarn, leaving a 6" (15 cm) tail. Gently push yarn close to the bottom of the loom, leaving space to make finishing easier. For the next row, be sure to go around the last strand so it is included in the weaving. Weave the wooden needle in and out of the warp in the opposite order of the first row.

Gently push yarn down with your fingers so the rows are even.

3. Continue weaving in this manner with **A**, until you have about 1½" (4 cm) woven on the loom. Leave a 6" (15 cm) tail.

4. Cut a piece of **B** approximately 5 feet (1.5m) long and weave with this color for 2" (5 cm), leaving a tail at the start and finish of this section, and every time you have to add new yarn.

5. To prepare for fringe, change to color **C**, and weave a section that is 5½" (14 cm) wide and 2½" (6cm) high.

6. **Fringe:** Cut 10" (25 cm) lengths of yarn with **C** for the fringe. To attach fringe to loom, fold one length of **C** in half, positioning the center over 2 strands of warp yarn. Tuck the ends around the outside of the two warp strands to create the fringe's 'knot'. Gently pull the ends down towards the bottom of the loom, pulling it snug, remember to keep your warp yarn straight. For the next piece of **C**, move to the next two warp strands and repeat.

7. To create layers, stagger your fringe knots along the warp. Continue adding to the loom until fringe is as tall as the previously woven section of **C**.

8. After fringe is complete, weave across all warp strands with **C** for 1" (2.5 cm)

continued...

9. **Shapes:** Cut a length of **B** for the first part of the triangle. Weave for 7" (18 cm) into the warp, wrapping around the closest warp strand, weave back to the edge you started on. On the next row, stop weaving one strand before the last warp strand on the row below; wrap and turn. Continue in this manner until the warp being worked on measures around 3" (7.5 cm), fasten off.

10. With **C**, start from the opposite edge of the woven shape and work up to the shape; wrap and turn around the warp strand.

11. On the next row, wrap and turn around the next warp to share a row with **B**.

12. Continue to wrap and turn, securing the warp as you reach the strands in each row until the weaving with **C** reaches all the way across the loom, continue for 1" (2.5 cm).

13. Change to **A** for the next section, weaving 3 rows before beginning to make a new shape. Fasten off when shape is 3 warp strands wide.

14. With **B**, starting on the opposite edge as **A**, fill in the rest of the warp, continuing all the way across the loom until the section measures approximately 1½" (4 cm) from the tallest point of the **A** shape.

15. Change to **C** and weave until you have filled the remaining warp on the loom.

continued...

FINISHING

1. Weave in all tails while weaving is still on the loom.
2. To remove the weaving from the loom, gently pull the loops up and off the pegs, using the wooden needle if necessary.

2. To remove the weaving from the loom, gently pull the loops up and off the pegs, using the wooden needle if necessary.
3. To finish the warp, either gently push the Grande yarn down to cover the loops or carefully cut the loops and tie knots.

3. To finish the warp, either gently push the Grande yarn down to cover the loops or carefully cut the loops and tie knots.
4. To hide the ends, use a crochet hook to pull the warp down into the piece.

4. To hide the ends, use a crochet hook to pull the warp down into the piece.
5. Use a length of **B** to attach the weaving to stick or dowel for hanging. Attach the yarn to the top edge of the piece, and referring to photo loosely whipstitch around the stick or dowel.
