Statement Yarn Spheres

Update your home's décor with this easy-to-do craft! With yarn, glue and some balloons you'll soon have a coordinating statement piece to brighten up a mantel or table!

The size of balloon will determine the size of each sphere.

SPHERE

Cover workspace with newspaper for easier clean up.

Set up a clothesline for hanging the balloons to dry later.

Pour Mod Podge into bowl.

Blow up balloon and secure with a knot. **(Photo 1)**

Cut one 4 yard (3.65m) piece of yarn. Holding one end, place the yarn into the glue mixture. Use a spoon to completely submerge the yarn in glue. **(Photo 2)**

Holding the balloon by the knot, wrap the soaked strand of yarn around the balloon in all directions. **(Photo 3)** Gently squeeze yarn as you wrap to remove excess glue.

Keep yarn snug as it is wrapped around balloon.

Tie a new piece of yarn to the knot or use a clothespin to secure to your clothesline. **(Photo 4)**

continued..

Repeat for additional balloon spheres.

Space spheres apart on the clothesline so that they can dry from all directions. Spheres will need up to 12 hours to dry completely. Once dry, cut the top of the balloon and let it deflate. It will detach from the dried yarn for easy removal.

TO DISPLAY

Arrange Spheres in a bowl or bell jar for a table arrangement.

Optional hanging arrangement

Cut a length of fishing line for each sphere. Tie one end of fishing line to the knot on the sphere. Tie opposite end to dowel. Use different lengths for each sphere, spacing spheres along dowel so they hang freely. Cut a length of fishing line for dowel hanger. Tie each end of fishing line to each end of dowel and use to hang dowel and spheres.
