Wrapped Storage Can

Up-cycle your empty cans with a bit of yarn and some fun craft time with the kids! These are great for organizing things like pencils, crochet hooks and paint brushes, or even to plant seedlings or use as a vase.

Measurements will vary depending on can size

Notes

Be sure to wrap yarn around can a minimum of three times to insulate can.

This craft is designed for children but younger children need to be supervised by an adult and an adult should always operate glue gun.

Make sure to smooth any sharp areas on the can.

Wrap Can

Plug in and heat up glue gun.

Step 1: Using A or B, pull tail from center of skein, do not cut. (Photo 1) Place a dab of hot glue on back of can along label line at top of area to be covered. Lay tail of yarn on hot glue and let cool to harden. (Photo 2).
