6. To make knit stitches, pull each lower wrap over the upper wrap and over top of finger. **Photo F**

8. Repeat steps 4 through 7 again and again. Keep pushing wraps down after each row.
9. As you proceed, gently pull on the knitting being formed at back of hand. It will look like a mess at first. **Photo H**

7. Now you have one row of loops left on palm side. Push these loops down to base of fingers. **Photo G**

10. When knitting is 60 inches long (or length desired), cut yarn leaving an 8 inch end. Run the end through each loop on your fingers as you remove it from fingers. Pull gently. Using your fingers, weave same yarn end through beginning loops; knot end with beginning end. Weave both ends in on wrong side using fingers.
