Stool Leg Cozies

Simple protective leg cozies make it easier for stools or chairs to slide on wood without scratching. These are crocheted in soft, furry yarn available in great colors for a comfy home.

**Cozy measures 2½" wide x 6¾" long
(6.5 x 17 cm), flattened.**

Special Techniques

Adjustable-ring method = Wrap yarn in a ring, ensuring that the tail falls behind the working yarn. Grip ring and tail firmly between middle finger and thumb. Insert hook through center of ring, yarn over (with working yarn) and draw up a loop. Work stitches of first round in the ring, working over both strands (the tail and the ring). After the first round of stitches is worked, pull gently, but firmly, on tail to tighten ring.

Invisible join = After last stitch in round is made, cut yarn leaving a long tail. Pull tail completely through last stitch. Thread the tail onto yarn needle and weave the end under the top 2 loops of the first stitch of the round and then back down into the center of the top of the last stitch of the round. Weave tail through wrong side of piece to first stitch to be sewn.

Notes

1. Pattern is intended for squared or rounded stool legs that measure about 6" (15 cm) around. For a larger or smaller leg, change hook size or increase or decrease the number of single crochet stitches in Set-Up Round. Work a few repeats of Round 2 to determine the correct size.
2. Cozy is worked in continuous (spiral) rounds. Do not join at end of round unless stated otherwise. Place marker for beginning of round and move marker up as each round is completed.

COZY (make 4)

Make an adjustable ring, ch 2.

Set-up Round: Work 9 sc in 2nd ch from hook—9 sc. Do not join. Place marker for beginning of round.

Round 1: Working in back loops only, 2 sc in each sc around—18 sc.

Round 2: Working in back loops only, sc in each sc around.
Repeat Round 2 until cozy measures 6½" (16.5 cm) long or to desired length.

Last round: Slip st in each st around; join with invisible join in first slip st. Fasten off.

FINISHING

Weave in ends.
