Large-eye tapestry needle
Fiberfill
Scissors

⊗ CROSS STITCH | SKILL LEVEL: **BEGINNER**

Featuring Anchor® Stitchable Felt™

The seven-holes-to-an-inch perforated Anchor® Stitchable Felt™ is great for creative cross-stitch projects. Make this Tooth Fairy Pillow for your favorite little one! Change up the colors of felt depending on your youngster's favorite color.

CUTTING

1. Following the diagram, cut out the white felt tooth.
2. The body of the pillow is made from one piece of blue Anchor® Stitchable Felt™ folded in half, no cutting needed.

SEWING

1. As you look at the tooth diagram, note that the solid black line is the white back stitch. The long dashed line is the line that will attach the tooth to the pillow. The top of the tooth is stitched before it is attached, then left open to slip in the tooth/money.
2. Stitch the tooth using all six strands of the Anchor stranded cotton embroidery floss. **Do NOT** stitch the attaching line.
3. When the tooth is stitched, place it on the blue background following the diagram for the blue Stitchable Felt™. You are working on the upper half of the sheet.
4. Stitch the tooth in place.
5. Stitch the two inner zig zag lines
6. Chart and stitch the name, following the alphabet diagram.
7. Fold up the lower half and stitch the outer zig zag line. Leave about 3" open, stuff a bit of fiberfill inside, then finish the stitching.
