MEASUREMENT

Approx 16" [40.5 cm] diameter, including fringe.

INSTRUCTIONS

1. **Fringe:** Cut strands of yarn 6" [15 cm] long. Taking 6 strands together, fold in half and knot into fringe around hoop. Continue adding fringe to fill completely around metal hoop. Trim fringe evenly.
2. Using strand of yarn, securely fasten 1" [2.5 cm] metal ring to top of hoop at wrong side, making sure ring is hidden behind fringe, to create hanging ring.
3. Using hot glue gun and glue sticks, glue mirror to back of hoop ensuring hanging ring is still accessible and mirror is very secure.

Optional: Apply spray starch to fringe and iron lightly to straighten.
