### Notes

1. Tunisian crochet is worked from the right  
side only; do not turn at the end of a row.
2. Each row consists of a forward pass and a  
reverse pass.
3. Always skip the first vertical bar when  
working the Forward Pass. Insert the  
hook into the second vertical bar at the  
beginning of the row.

4. If you hold the hook in your right hand,  
you will work the forward pass, picking up  
loops, from right to left. And you will work  
the return pass, working off loops, from  
left to right. If you hold the hook in your left  
hand, you will work the forward and return  
passes in the opposite directions.
5. Carry color not in use along wrong side of  
right edge.
