Stick Weaving

Want to try weaving but don't have a loom? No problem, head outside, grab an interesting set of branches, and get started making easy and fun wall decorations!

WEAVING

Steps (refer to photos):

1. Using **C**, and without cutting yarn from skein, knot yarn end to wooden stick at center base of "Y".

2. Holding stick/branch flat, with the 'arms' to the right and left, first wrap yarn around the left 'arm' looping 2 times, and then wrap yarn around the right 'arm', looping 2 times.

3. Repeat wrapping method until the 'Y' section is completely covered. Cut yarn and fasten with a knot.

4. Cut a 36" [91.5 cm] length of **A** and thread the blunt needle. Pull yarn through eye of needle until ends meet and then tie yarn ends together leaving a 4" [10 cm] tail.

5. Knot the tails around the center base of the 'Y'.

6. Working vertically between the 2 legs of the 'Y', weave **A** in and out of **C** until end of strand is reached. Cut **A**, leaving two 4" [10 cm] tails.

7. Cut a similar or shorter length of **B** and thread the blunt needle. Pull yarn through eye of needle until ends meet and then tie yarn ends together leaving a 4" [10 cm] tail. Tie **B** tails to end of **A** and then continue to weave as established.

8. When the end of **B** is reached, change to **A** and then to **B**, continuing to weave as established until entire center of 'Y' has been woven. Trim ends of yarn as desired.
