Special Stitch

Lsc (long single crochet) = Insert hook in bottom of indicated st 1 row below, yarn over and pull up a loop, yarn over and draw through both loops on hook. Skip stitch behind long single crochet.

reverse sc (reverse single crochet) = Work single crochet in opposite direction from which you would usually work (left to right if you are right-handed and right to left if you are left-handed). This stitch is also known as crab stitch. It creates a rope-like twisted single crochet edging.

sc2tog = [Insert hook in next stitch, yarn over and pull up a loop] twice, yarn over and draw through all 3 loops on hook.

Pattern Stitch

Row 1 (wrong side): Ch 1, sc in first sc, *Lsc in next sc 1 row below, sc in next sc; repeat from * across, turn.

Notes

- To change color, work last stitch of old color to last yarn over. Yarn over with new color and draw through all loops on hook to complete stitch. Proceed with new color. Cut old color or carry along wrong side until next needed to minimize weaving in ends.
- Beginning at end of Row 3 of Body, change to next color in color sequence at the end of every other row.
