Easy Wrap Cans

Up-cycle your empty cans with a bit of yarn and some fun craft time with the kids! These are great for organizing things like knitting needles, crochet hooks and paint brushes.

Measurements will vary depending on can size

Notes

Make sure to smooth any sharp areas on the cans.

This craft is designed for children but younger children need to be supervised by an adult and an adult should always operate glue gun.

WRAPPED CAN

Plug in and heat up glue gun.

Step 1: Using **A** or **B**, pull yarn from outside of skein for smoother yarn. Place a dab of hot glue on back of can along label line at bottom of area to be covered. Lay tail of yarn on hot glue and let cool to harden. **(Photo 1).**

Step 2: Begin to wrap yarn around can, covering the tail of yarn and keeping yarn neat and close together **(Photo 2)**. If yarn does not stay in place, add small dabs of glue as necessary.
