Cabled Basket

Keep your living room or studio organized with this cute basket. It's perfect for storing everything from magazines and remotes to yarn projects (or part of your yarn stash!).

Basket measures 13" (33 cm) in diameter and 10" (25.5 cm) tall.

NOTES

To make this basket, you will first make a flat circle for the base. The walls of the basket will then be worked into the edges of the base, but will not increase, and therefore will move upward to make a cylinder shape. The last few rounds of the walls skip several stitches and add a chain to make handles to carry the basket.

SPECIAL STITCHES

BS1 (Braid Stitch): Skip two stitches, FPEtc in next two stitches, FPEtc in skipped stitches. Note: The FPEtc in the skipped stitches should be worked in front of the first two FPEtc – four crossed stitches.

BS2 (Braid Stitch): Skip two stitches, FPEtc in next two stitches, FPEtc in skipped stitches. Note: the FPEtc in the skipped stitches should be worked behind the first two FPEtc – four crossed stitches.

FPEdc (Front Post Extended Double Crochet): Yarn over, insert hook around next stitch from front to back then back to front; yarn over and pull up a loop, yarn over, pull through 1 loop, [yarn over and pull through 2 loops] twice.

FPEtc (Front Post Extended Treble Crochet): Yarn over twice, insert hook around next stitch from front to back then back to front; yarn over and pull up a loop, yarn over, pull through 1 loop, [yarn over and pull through 2 loops] 3 times.

Puff St: Yarn over, insert hook in next stitch, yarn over, pull up a loop, [yarn over, insert hook in same stitch, yarn over, pull up a loop] 2 times; yarn over and pull through all 7 loops on hook; yarn over and pull through to secure the stitch.

BASKET BASE

Note: The sts making up this base should be relatively tight and stiff. This allows the base of the basket to have structure and not bend too much when carrying yarn. If your sts are too loose, you can make the sts tighter by either using more tension or switching to a smaller hook.
