NOTES

1. Cowl is worked in rounds of Fair Isle, with the right side always facing.
2. The Fair Isle pattern is worked following a chart. Read all rows of chart from right to left.
3. When working with one color, the other color is carried loosely along the wrong side of the fabric until it is needed again.
4. To prevent puckering of the fabric, be sure to not pull the yarn too tightly when changing colors.
5. Cowl is worked with 2 strands of yarn held together throughout, for all colors.
